SKILLS

• Languages:	JavaScript
• Frameworks:	HTML/CSS, JavaScript, C++
• Cloud & Devops:	Git, GitHub, Linux, AWS, Bash
• Real-Time & Media:	WebRTC, LiveKit, Socket.IO, WebSockets
• Soft Skills:	Problem-Solving Skills, Team Player, Project Management, Adaptability, Problem-Solving

PROJECTS

CallIQ (Real-Time WebRTC Contact-Center Platform)	https://calliq-web-mfv4.onrender.com/	(2026)
• Developed a full-stack real-time WebRTC contact-center platform featuring voice, chat, live supervision, and analytics in a single workspace. • Implemented one-click voice & chat routing, live supervisor whisper/barge-in modes, and automated post-call feedback ratings. • Tech Stack: Next.js 14, React, Tailwind CSS, Socket.IO, Upstash Redis, LiveKit Cloud, Node.js, Express, Supabase, PDFKit, Recharts		
Medicare (AI-Powered Healthcare Companion)	https://adaptive-care.vercel.app/	(2026)
• Built a safety-first healthcare assistant for everyday wellness, medication tracking, and document analysis, pairing a Flask backend with Groq-powered LLMs and deterministic safety guardrails. • Enabled multimodal analysis of prescriptions and lab reports, hybrid drug-interaction safety checking, and client-side medication reminders using local Storage. • Tech Stack: Python, Flask, Groq API, Llama 3.3 70B, Vision Models, Flask-Limiter, pypdf, JavaScript, HTML5, CSS3, Vercel		
File Compression Utility (Huffman Coding Engine with Web interface)	https://file-compression-utility.onrender.com/	(2026)
• Engineered a full-stack compression tool pairing a native C++ Huffman coding engine with a Flask web interface so files can be compressed and decompressed from the command line or a browser UI. • Added bit-level C++ Huffman encode/decode engine, drag-and-drop support, batch processing with per-file progress, and an analytics dashboard calculating space saved. • Tech Stack: C++17, Python, Flask, JavaScript, HTML5, CSS3		
IPC Framework (Inter-Process Communication Framework with Security Layer)		(2025)
• Created a comprehensive Inter-Process Communication framework pairing a C backend with a modern web dashboard covering pipes, message queues, and shared memory alongside a token-based security layer. • Configured SHA-256 hashing, AES-256 encryption, token-based authentication, and real-time IPC channel monitoring with live activity and system reports. • Tech Stack: C, Next.js 16, React 19, Tailwind CSS, Radix UI, Recharts, OpenSSL, TypeScript		

CERTIFICATES

• Oracle AI Certification, Oracle	May 2026
• Oracle Data Platform Certified Foundations Associate, Oracle University	May 2026
• AWS Academy Graduate - Cloud Foundations, AWS Academy	Jan 2026-May 2026
• Data Structure and Algorithm, iamneo	Jan 2026-Jun 2026
• Oracle Cloud Infrastructure Certified Foundations Associate, Oracle University	July 2026
• Linux Shell Scripting, Skillera	November 2024

EDUCATION

• Lovely Professional University	Punjab, India
• <i>Bachelor of Technology - Computer Science and Engineering</i>	Since August 2024
• Swarajaya Senior Secondary School	Alwar , Rajasthan
• <i>PCM</i>	April 2023 - March 2024
• D.A.V Public School, BSEB Colony	Patna, Bihar
• <i></i>	April 2021 - March 2022
